Core Values

About Us

In 1979, RYAN was established as a family-owned custom clearance agency. From humble beginnings, it has since become a brand name in custom clearance and logistics services in Pakistan. Our hallmark is in providing solutions which emphasize efficiency, speed and reliability. Serving a diverse portfolio of clients with a team of over 100 qualified and experienced staff, we pride ourselves in having in-depth expertise in customs

law and procedure pertaining to international trade and the transportation of goods across air, sea and land. Our client base consists of the largest entities in oil and gas, power generation, diplomatic missions, food and beverage, textiles, telecommunication, automobile, chemicals, construction & infrastructure, marine, steel, aviation and mining sectors. With a focus on professionalism and value added services, RYAN

maintains long-term relations with some of the leading domestic & global players in the logistics industry. We have an extensive network and strong relationships specially with logistics companies in China where we have a reputation as a reliable and experienced local partner in Pakistan. Our ethos for excellent service, developing mutually beneficial relationships and adherence to a strong work ethic has resulted in our consistent growth.

Having decades of experience, we have come to learn that, above all, our strong relationships, transparency and guiding our customers to make the right decisions has been the foundation of our success. We firmly believe that service is our foundation and the unsurpassed quality of its delivery is our paramount criterion.

Custom Clearance

Custom Clearance is a critical part of the import or export supply chain. Hassle free and timely custom clearance of goods directly affects the cost and profitability for our customers. We therefore work diligently to ensure that their unique requirements are met to their satisfaction. We strive to assist our clients with managing the risks of importing and improving efficiencies in their processes, with emphasis on a thorough understanding of regulations. We continuously engage in improving best practices in order to meet the needs of our customers.

Our scope and expertise includes:

- Clearance at all custom stations in Pakistan
- Clearance under bilateral and multilateral trade agreements
- Clearance under temporary basis including duty drawback
- Clearance under various concessionary notifications
- Tax exempt clearance of diplomatic cargo or aid cargo
- Pre-import advisory on tariff classifications, concessionary notifications, valuation, import and export regulations
- Pre-import advisory on preparation of shipping documents

Besides knowledge and experience, our excellent contacts with custom authorities are also helpful in quickly resolving problems, if any, and in handling the clearance without any delay.

Project Logistics

RYAN Project Logistics division handles projects of every dimension and is experienced in offering complete logistics solutions to sectors including power generation, refinery, infrastructure, container terminal, power distribution, paper, cement, construction and oil & gas. We are serving some of the leading megaprojects of national and international importance with a strong focus on the energy sector which includes wind, coal, hydro, gas, oil, bagasse and solar power plants. Project cargo shipments are handled at RYAN with great care and we plan and analyze project needs and requirements in advance which makes it possible for us to render hassle free and desirable results.

Our scope and strengths include:

- Dedicated, qualified and specialized project teams
- Professional customs clearance
- Supervision of cargo during discharge and post discharge survey
- Arrangements for under hook delivery of oversize and heavy lifts
- Temporary storage within and outside port premises
- Security escort during transportation
- Temporary import of construction machinery and equipment
- Comprehensive route and site survey
- Provision of specialized transport equipment
- Provision of cranes for loading, un-loading and erection at job site
- Un-loading of heavy lifts under expert supervision

All project related work is thus carried out within our quality assurance guidelines and procedures for which our staff is fully equipped and trained.

Transportation

We have built up a comprehensive network of partners to enable us to offer a fast, reliable and competitive road transportation service anywhere in Pakistan for cargo ranging from part loads to heavy-lift and over-dimensional project cargo. We can arrange a variety of vehicles required in transportation of transformers, turbines, generators, vessels and wind turbine blades. We ensure that our clients receive the highest level of transportation services and risk management under our supervision.

Our scope and strengths include:

- Timely pick-up and delivery of goods
- Route survey and permissions required from concerned departments
- Compliant and reliable transport equipment
- Vehicles and equipment including low beds, multi-axes, long trailers, customized trailers for tower and wind turbine blades or other specific needs
- Provision of escort vehicles and security for oversize and sensitive cargo
- Online tracking using portable and fixed GPS
- Expedited and time critical service with 24/7 response

Air and Ocean Freight

Whether you are shipping by air or sea, door-to-door or port-to-port, you can depend on RYAN and its worldwide network of partners to deliver your shipment quickly and safely regardless of its size and weight. We offer tailor-made Air Freight and Sea Freight solutions, helping to find you the most suitable, cost effective way of shipping goods from one country to another.

Our customers benefit from:

- Air transport, sea transport and multi-model service through our robust network
- Assistance with regulatory requirements at origin and destination
- Packaging, lashing and fumigation
- Third party testing and inspection
- Full and part charters
- Competitive destination charges
- Reliable carriers
- In-house custom clearance

Warehousing

We arrange secure private, public and custom bonded warehousing on short and long term for our clients. Premises and location are carefully selected to suit our client's requirements on competitive rates.

Afghan Transit

RYAN has partnered with leading Afghan transit logistics service providers in Karachi, Torkham and Chaman to offer one-window logistics solutions to our clients involved in exports to Afghanistan from or via Pakistan. We provide services such as customs clearing of cargo at Karachi ports, transportation and customs clearance at the border and in Afghanistan. Our main focus is on non-commercial project cargo, aid cargo and fuel supply from Pakistan.

Exhibition Logistics

RYAN is highly experienced in orchestrating the full range of logistics services required by event organizers and exhibitors. This includes the professional handling and transport of bulky exhibits from customer's factory to exhibitor's booth. Whether you are an exhibitor or an organizer, we can manage your entire project cost effectively and, above all, with highest level of professionalism.
